DEADRAY DEBUTS WITH "NIGHTMARE" - A MELANCHOLIC RAVE TRANSMISSION

DeadRay is a new witch house project formed by producers MAN1K and DesireLust with Lakomi as a vocalist. On May 23, the trio releases its debut single, "NightMare".

The track is anchored by driving arpeggio sequences and a dense, absorbing low end - witch house filtered through a rave sensibility, melancholic in tone but relentless in energy. Lakomi's vocals were captured in a single improvised studio take: raw, physical screams that give the track an intensity no scripted performance could replicate.

MAN1K and DesireLust produced NightMare as a joint effort, bringing together two distinct production perspectives into a cohesive and tightly constructed sound. DeadRay sits firmly within the witch house genre while pushing its boundaries toward the dancefloor - dark, heavy, and deliberately uncompromising.

NightMare is out now on all major platforms.
